Inspection Results and Photos
<p>1) The Manhattan table was not ready yet.</p> <p>2) 1x20'ft container with 28 tables are finished and all accessories are ready in the warehouse.</p> <p>3) Because all tables and accessories were unpacked, the method of inspection was checked group by group.</p> <p>4) We found some faults on the cartons. We checked each part of the table (e.g., legs, pockets, rails, hardware etc.). There were no visible cracks or scratches on any of the tables we inspected.</p> <p>5) Factory did not pack our tables today; they were busy loading 1x40'ft shipment for another customer. I took photos of loading that shipment for your reference.</p> <p>Please refer to the photos as follows:</p>

JitVerify Comments

We booked the inspection date with the factory in advance, but the factory was not fully ready. We found dusty goods in the warehouse but the quality seems to be fine. We did not check the packing or loading. We suggest that we have to verify the packing and loading again before shipment.
